\*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

Building 556 is an L-shaped two-story rectangular building with a one-story wing forming the leg of the L. Built of stucco panels, the building has a concrete block foundation. The front entry doors, on the south, are enclosed in bays of tinted glass in aluminum sash. Tinted glass ribbon windows in aluminum sash are located on the south, north, and east side of the two-story section. Fixed single pane windows in aluminum sash are located on the north and west sides of the one-story portion. The building has a flat roof; air conditioning units on the one story wing have been hidden by a pseudo-mansard roof.
